Great Human Potential: Walking in ones own light - Teachings from the Pleiades and the Hathors

Although the progress of medicine may be supposed to afford at present a greater prospect of success than was then attainable, it is but necessary to remember, in order to dismiss this view, that the progress itself is mainly due to the cultivation of that branch of science which would here be excluded. To successfully employ the most commonly used gene expression profiling technique i.

Locked Down and other short stories

I am fascinated with the broad notion of how we can equip everyone to reach their full potential. I intend here to examine a few key green ideas and their respective origins, and to reveal how this situation of tension within contemporary green debate, which can be both productive and restrictive, has arisen.
