Now since the syllogism rests on the stated relative determinateness of the terms, it is immediately evident that other relationships Anatomy Academy the terms which are given by the other figures can only have validity as syllogisms of the under standing [Verstandesschlusse] in so far as they can be reduced to that original relationship; they are not different species of figures which stand alongside the first; on the contrary, on the one hand, in so far as they purport to be correct syllogisms, they rest solely on the essential form of the syllogism in general, which is the Anatomy Academy figure; on the other hand, in so far as they deviate from it they are transformations into Anatomy Academy that first abstract form necessarily passes, thereby further determining itself and advancing to totality. To be more successful at motivational interviewing, a clinician must have a strong sense of "purpose, clear strategies and skills for such purposes".
